

The Homelight Plus window system combines class leading thermal performance and enhanced security. Homelight Plus uses the slimmest profiles to maximise the benefit of natural daylight reducing reliance on artificial light. Security is taken care of by a robust multi-point locking system tested to the Enhanced Security PAS 24 standard.

Features and Benefits

- Modular multi-light construction that replicates the original Crittall SMW style
- Fully welded, seamless frames
- Hot-dip galvanised. 60 year plus life expectancy
- In-house, factory applied Duralife® polyester powder coating
- Integrated, high-performance co-extruded uPVC weatherseals
- Multi-point locking system available
- Thermally efficient. Part L compliant
- Fixed, top or side hung including projecting options
- Hardware designed for heritage and contemporary schemes

Quick View

Material	Steel, hot rolled
Glass Thickness	24 mm / 15/16" double glazing
Finish	Full range of RAL/BS colours
Air Permeability	Up to 600 Pa / 12.53 PSF
Water Tightness	Up to 600 Pa / 12.53 PSF
Wind Resistance	Up to 1600 Pa / 33.42 PSF
Quality Management	ISO 9001
Environmental Management	ISO 14001
Security	PAS 24
Energy Efficiency	WER Band B
